Personnel

The tables come with their own set of chips and each one is managed by a smart and polite croupier in black tie attire. Our dealers will arrive approximately 15 minutes before they are due to open the tables.

Introduction

The acting casino manager will make an introduction to your guests before the tables open for play to go over the format of the evening, how it all works, inject a little humour and competitive spirit into the evening.

Fun Money

We distribute \$100 dollars of printed fun money to each player before start time. Guests then transfer the fun money for chips at the tables in order to place their bets. Chips cannot be taken from one table to another but can be cashed in for fun money if players wish to try another game.

Playing

The games are all simple to learn and can be picked up with the help of the croupier.

Payment Conditions

£100 deposit on confirmation, balance to be paid in full at least seven days prior the event date.

Refunds

We have never let our clients down with regards to setting up, but in the very unlikely event of not being able to set up 60 minutes after start time the event will be cancelled and a full refund will be given. Also in the unlikely event that a croupier is over 60 minutes late, or there is a no show, a full refund for the cost of one table per dealer will be refunded.

Behaviour

Please note that it is the responsibility of the Client to ensure that our personnel are treated with courtesy and that any abuse towards our staff will not be tolerated.
